Gauteng engages private property developers to report progress on the delivery of Transport Infrastructure to support their developments

Gauteng MEC for Public Transport and Roads Infrastructure, Jacob Mamabolo, will on Thursday, 10 March 2022, kick-start engagements with private property developers to report progress on the delivery of Transport Infrastructure to support their developments.

This forms part of the Provincial Government's commitment to support the industry's multibillion-rand developments to boost economic recovery and growth.

The Provincial Government has identified 18 high-capacity road projects that could serve as a lever to support the province's plans around the development of the Special Economic Zones (SEZs).

Engagements will serve to discuss the Department's future roads infrastructure plans, their alignment with private property developments and impact on the movement of goods and services.

The engagement forms part of the Gauteng Provincial Government's Province-Wide 2022 EXCO Ntirhisano Outreach Programmes.

Details of the event are as follows:

Date: Thursday, 10 March 2022

Time: 12h00

Venue: K8 Rosslyn Road, City of Tshwane

Issued by the Gauteng Department of Roads and Transport
