EXECUTIVE SUMMARY

The 2020 Adjusted Estimates of Capital Expenditure presents detailed projects information on revised spending projections and revised planned activities for the remaining period of the financial year. It is presented in the context of, and following, the Special Adjustment Budget tabled by the Province in July 2020 to make provision for funding required to address the impact of the COVID-19 pandemic and to align the budget to the envisaged consequences of the lockdown regulations. This Mid-year Adjustment Budget makes necessary amendments which are mostly informed by a review of the actual project performance per department in the first two (2) quarters of the 2020/21 financial year. In the 2020/21 financial year a total budget of R11.592 billion was allocated for the Gauteng Provincial Government (GPG) infrastructure programme to maintain and improve the condition of the existing stock and to provide additional assets. This budget was adjusted upwards by R617.35 million in the Special Adjustment to R12.209 billion. In terms of this Mid-year Adjustment Budget, a budget of R12.289 billion is allocated to the GPG infrastructure programme, which represents an upwards adjustment of R80.8 million against the Special Adjustment. A summary of the infrastructure adjustments by department is presented in Table 1 below. The main drivers of the upwards adjustment include the approval of the rollover request of R165 million for the Department of Human Settlements and an upward adjustment of R99.64 million for Gauteng Department of Education (GDE) to fund an improved infrastructure performance and resultant additional cash flow requirement for the remaining months of the financial year.

The downwards adjustment of R177.55 million for Gauteng Department of Roads and Transport (GDRT) mainly reflects procurement delays. In addition, the review of the progress of projects in GDRT and a reprioritization of funds within the department resulted in additional funds being made available to improve the condition of roads in the Emfuleni area. The budget for Gauteng Department of Agriculture and Rural Development (GDARD) has been adjusted downwards by R4.55 million, mainly due to delays in the Internal Capacity Building Programme and on a bulk water project at the Suikerbosrand Nature Reserve. The budget for the Gauteng Department of Sport, Arts, Culture and Recreation (GDSACR) has been adjusted downward by R1.72 million, mainly to due to construction delays on the Community Library programme. The budgets for the departments of Health, Social Development and Infrastructure Development remain unchanged when compared to the Special Adjustment.

GPG Overall Adjustment Allocation Across Development Corridors

The infrastructure budget is allocated to the five different development corridors in the province, and to projects spanning across various development corridors, which is summarised in Table 2. The largest additional allocations in the adjustment, at R202.49 million and R88.91 million went to the Southern and Central Development Corridors respectively. The upward adjustment of R202.49 million for the Southern Development Corridor is mainly due to the need for the maintenance of health facilities and for the improvement of roads in Emfuleni. The upward adjustment of R88.91 million for the Central Development Corridor was mainly to align funding to improved performance within the GDE infrastructure programme. The upward adjustment of R65.7 million for the Eastern Development Corridor is mainly to fund the maintenance of existing health facilities.

The downward adjustment of R227.22 million for projects spanning across various development corridors is mainly due to a decrease within the GDOH Adjusted Budget, primarily due to a reduction in funding required for the COVID-19 infrastructure response. The downward adjustment of R38.56 million for the Northern Development Corridor is mainly due to a decrease within the GDRT Adjusted Budget due to procurement challenges. The downward adjustment of R10.5 million for the Western Development Corridor is mainly due to a decrease within the GDRT Adjusted Budget, primarily for the same reasons as for the Northern Development Corridor.

1. STRATEGIC OVERVIEW OF INFRASTRUCTURE PROGRAMME

The purpose of the infrastructure programme is to provide quality health care services in a safe and secure environment. The Gauteng Department of Health (GDOH) has a mandate to keep all health facilities in a habitable and good operational condition. The maintenance of such facilities must conform to the Infrastructure Delivery Management System (IDMS), norms and standards, national standards and applicable legislation. The main objective is to retain the infrastructure capacity to support health services delivery and to maintain the capital investment in the physical assets required for service delivery.

GDOH defines its primary mandate as:

- To improve the health status of the population;
- To improve health services;
- To provide integrated services and programmes that promote and protect health; and
- To assist with ensuring good quality and sustainable livelihoods for the poor, vulnerable and marginalised groups in society.

The GDOH Infrastructure Programme is aligned to Growing Gauteng Together plan and the seven priorities of the 6th Term Administration:

- Economy, Jobs and Infrastructure;
- Education, Skills Revolution and Health;
- Integrated Human Settlements and Land Reform;
- Safety, Social Cohesion and Food Security;
- Build a capable, ethical and developmental state;
- · Building a better Africa and the World; and
- Sustainable development for future generations.

In support of the National Development Plan (NDP): A vision for 2030, the GDoH Infrastructure Programme developed the following priorities:

- Acceleration of health infrastructure upgrades, refurbishment and rehabilitation through improved infrastructure design, delivery and maintenance;
- Improved maintenance through adequate budget allocation and average completion for minor maintenance with a turn-around time of 48 hours;
- Adherence to norms and standards and alignment with national norms and standards through construction of proto-type clinics in all districts.

Legislative Mandate

The infrastructure delivery programme complies with the requirements laid down in the Public Finance Management Act, 1999 (Act No. 1 of 1999 - PFMA) and the Division of Revenue Act (DoRA). Further legislation that is specifically applicable to the delivery and maintenance of health infrastructure includes the following

- Architectural Profession Act, No. 44 of 2000;
- Built Environment Profession Act, No. 43 of 2000;
- Children's Act, No. 38 of 2005;

- Children's Act, 2005 (Act No. 38 of 2005).
- Government Immovable Asset Management Act, 2007 (Act No. 19 of 2007).
- Public Service Act, 1994 as amended in 2007 (Act No. 30 of 2007) and Public Service Regulations, 2016.

2. FUNDING OF INFRASTRUCTURE

A summary of the adjustments to the main appropriation is presented in Table 1 below. The main budget of R1.997 billion was adjusted upwards by R2.191 billion to R4.188 billion in the special budget adjustment in response to the COVID-19 pandemic. The total budget appropriated in the special budget adjustment remained unchanged in the main budget adjustment. The department has however reprioritised the available resources to fund the areas that requires additional funding. The summary presented in the table below indicates that rehabilitation and maintenance are the two categories that received additional funding.

Table 2 below presents a summary of infrastructure allocations per source of funding. Of the total adjusted appropriation, R3.217 billion is funded from the Provincial Equitable Share (PES) and this amount includes the R2.977 billion allocated in response to COVID-19 pandemic. The remaining R970.4 million is funded from the conditional grants of which R968.2 million is funded from Health Facility Revitalisation Grant (HFRG) and the R2.2 million from the Expanded Public Works Programme (EPWP) grant.

3. REVIEW OF THE 2020/21 FINANCIAL YEAR

3.1. Mid-Year performance of the portfolio

The infrastructure programme was not able to achieve targets set in the first half of this financial due to the COVID-19 pandemic as there was little or no production on different projects that have reached construction stage, as a result of lockdown pronounced by the President of the Republic of South Africa. The overall expenditure at the end of September 2020 against the infrastructure allocation of R4.148 billion was R1.760 billion or 42 percent.

3.2. Performance per corridor

Table 3 below presents the adjustment budget of R4.188 billion allocated to the different development corridors in the province. The Central and Northern development corridors retain the largest portion of the budget due to the COVID-19 projects at different levels of implementation.

Table 3: Budget per Development Corridor

3.3. Central Development Corridor

The increase in allocation for rehabilitation and maintenance categories resulted in the budget for this corridor adjusted upwards to R1.48 billion during the special adjustment and a further upwards adjustment to R1.5 billion during the mid-year adjustment. During the special adjustment, the central corridor received R1.01 billion [34%] of the budget allocated to COVID-19 pandemic, however this budget was reduced to R789 million during the mid-year adjustment following the decommissioning of NASREC facility (Hall number 7&8).

3.4. Eastern Development Corridor

The main budget allocation for this corridor was adjusted downwards to R139.7 million in the special adjustment due to restriction imposed resulting from the national lockdown. The maintenance needs identified by the department resulted in the total mid-year budget requirement in this corridor increasing from R139.7 million allocated during special adjustment to R216.7 million to accommodate maintenance needs.

3.5. Northern Development Corridor

The main budget for this corridor was increased from R514.60 million to R1.085 billion in the special budget adjustment. This budget has now been increased to R1.22 billion in the mid-year budget adjustment to accommodate the maintenance needs and potential cashflow requirements for the COVID 19 Projects should the pending compensation events get approved.

3.6. Southern Development Corridor

The main budget allocation for this corridor was adjusted upwards from R138 million to R322.7million in the special budget adjustment. The same budget which was adjusted upwards in the special budget adjustment has now been increased to R441.5 million to accommodate the maintenance needs for the facilities located within this corridor and to align with the possible cashflow requirements for the COVID-19 projects.

3.7. Western Development Corridor

The main budget allocated to this corridor was adjusted upwards in the special adjustment for the refurbishment and upgrading of the Anglo Gold Ashanti hospital. The department has however identified the need to maintain the facilities located within this corridor which has resulted in the upwards adjustment of the budget from R753.5 million to R794.82 million in the main adjustment.

3.8. Projects Spanning Across Various Development Corridors

Projects spanning across more than one corridor includes the projects funded from the EPWP grant, master planning for Pholosong, Tara, Tembisa and Kopanong hospitals. The review of the budget allocated during the special adjustment in response to the COVID 19 pandemic has resulted in the reduced mid-year adjustment as demonstrated in Table 10 below.

1. STRATEGIC OVERVIEW OF INFRASTRUCTURE PROGRAMME

The main strategic focus of the Gauteng Department of Educations' (GDE) infrastructure programme is to provide adequate support to curriculum administration and the overall process of teaching and learning.

The Department's infrastructure programme seeks to support the various National and Provincial priorities to improve quality of learning, access to Early Childhood Development (ECD) and to improve school management, this is to be achieved by providing and maintaining education infrastructure to support the teaching and learning process in all public schools in the province.

National Priorities

Nationally, the provision of education infrastructure is primarily focused on the implementation of the regulations relating to minimum uniform norms and standards for Public School Infrastructure (Government Gazette No 37081, 2013) together with other key provincial infrastructure priorities.

The Objectives of the Regulations are:

- To provide minimum uniform norms and standards for public school infrastructure;
- To ensure that there is compliance with the minimum uniform norms and standards in the design and construction of new schools and additions, and alterations and improvements to schools which existed when these regulations were published; and
- To provide for timeframes within which school infrastructure backlogs must be eradicated.

The GDE 2020/2021 budget seeks to address National priorities aligned to the implementation of the Regulations as well as making provision for Provincial and Departmental priorities. Gauteng Province is facing a constrained fiscal environment; therefore, it is essential for the GDE Provincial schools build programme to employ strategies for ensuring the maximum utility of all financial resources related to the provision of education infrastructure. The provision of infrastructure for the Provincial institutions of public schooling is vital to ensuring sound fiscal stewardship of the public's restrained resources.

Provincial Priorities

The GDE Infrastructure Programme is aligned to Growing Gauteng Together and the priorities of the 6th Term Administration, anchored in and guided by the Transformation, Modernisation and Reindustrialisation (TMR) programme and giving expression to the National Development Plan (NDP):

- Economy, Jobs and Infrastructure;
- Education, Skills Revolution and Health;

Gauteng Provincial Government (GPG) has committed itself to improving the quality of education through, *inter alia*, the delivery of adequate infrastructure to our schools. This has been a mammoth task as there were many disparities created by the past system. Significant progress has been made, which includes replacement of inappropriate structures and building completely new schools.

GDE Intervention

The provision of education infrastructure in the province is geared towards the following:

- New school infrastructure to address overcrowding and growth in the sector;
- The replacement of schools entirely built from asbestos with brick and mortar structures as well as schools built using Alternative Construction Technologies (ACTs);
- Additions and upgrades programme, to deal with existing overcrowded schools (existing schools where there is available land for additional classrooms and other educational spaces);
- Rehabilitation and refurbishment programme, to address dilapidated schools, preserving the condition of the asset portfolio and keeping it in a functional state;
- Conversion of ordinary Grade 10 classrooms into smart classrooms. This programme has also been extended to those schools that have achieved a 100% pass rate; and
- Maintenance (reactive and preventative maintenance) to ensure functionality, a safe and healthy environment and preservation of fixed assets.

A substantial allocation has also been set aside for the Maintenance programme over the 2020 Medium Term Expenditure Framework [MTEF].

Key strategic interventions have been put in place to respond to the provincial needs and the following catalytic projects have been identified to complement and supplement the above extensive goals:

- Accelerated implementation of the Grade 10 Smart Classrooms programme with access to computers and broadband internet;
- Accelerated Alternative Construction Technology (ACT) programme focused on the provision of additional classrooms, grade R facilities, ablution facilities, libraries and laboratories; and
- Upgrades and additions to existing schools.

Legislative mandate

The GDE infrastructure delivery programme complies with the requirements laid down in the Public Finance Management Act, No. 1 of 1999 and Regulations (PFMA) and the Division of Revenue Act (DORA). Further legislation that is specifically applicable to the delivery and maintenance of GDE infrastructure includes the following:

- South African Schools Act, 1996 (Act No. 84 of 1996);
- Regulations Relating to Minimum Uniform Norms and Standards for Public School Infrastructure;
- Public Finance Management Act, 1999 (Act No. 1 of 1999);
- Occupational Health and Safety Act, 1993 (Act No. 85 of 1993);
- National Building Regulations;
- Construction Industry Development Board Act, 2000 (Act No.38 of 2000);
- Government Immovable Asset Management Act, 2007 (Act No. 19 of 2007); and
- All acts relating to Built Environment councils and all other relevant legislation.

Key to all these prescripts are the timelines linked to the Regulations Relating to Minimum Uniform Norms and Standards for Public School Infrastructure as they stipulate all aspects of infrastructure to be delivered in relation to school infrastructure.

2. FUNDING OF INFRASTRUCTURE

Table 1 below indicates the main appropriation for GDE's infrastructure portfolio at the beginning of the 2020/21 financial year, special adjustment appropriation and the adjusted appropriation. The reduction of the Education Infrastructure Grant resulted in the special adjustment appropriation of R1.315 billion. The adjusted appropriation has however been increased by R 99.3 million to R 1.415 billion from the special adjustment due to improved performance of projects after the national lockdown and the need to refurbish or maintain schools that have structural and storm related damages.

Table 2 below shows funding sources for the infrastructure investments. The increase in the Provincial Equitable Share (PES), from R38.64 million to R138.27 million resulted in the upwards adjustment of the adjusted appropriation to R1.415 billion. The Education Infrastructure Grant decreased from R1.498 billion to R1.275 billion in the special adjustment appropriation. The Education Infrastructure Grant (EIG) and the EPWP grants remain unaltered from the special adjustment appropriation.

3. REVIEW OF THE 2020/21 FINANCIAL YEAR

3.1 Mid-Year Performance of the portfolio

A total of budget of R1.538 billion was allocated to the department at the beginning of the financial year. However due to the lockdown, various projects, especially those that had reached construction stage, did not perform as planned. As a result, the overall budget was adjusted downward from R1.538 to R1.315 billion. As the lockdown was eased into stage 1, construction activities started to pick up and the need for maintenance and rehabilitation of schools that has structural defects had increased, hence funds were moved from some programmes to address maintenance and rehabilitation & refurbishment programmes across various corridors.

3.2 Developmental Corridors

The budget of R1.415 billion allocated to the department's infrastructure programme is distributed across all corridors as shown in table 3 below.

Of the total allocation, 69 percent is allocated to projects that run across various corridors. These include general maintenance of schools, repairs of damaged schools and installation of ICT technology in classrooms. This was followed by central corridor with an allocation of R194 million which translate to 14 percent of the total budget allocation.

3.2.1 Central Development Corridor

Central Corridor was allocated R274 million during the main appropriation, this was decreased to R100 million during the special adjustment appropriation because of little or no production on sites due to different levels of national lockdown. However, the adjusted appropriation has been increased to R 194 million due to improved construction performance observed at Braamfischerville Primary, Deltapark LSEN and Nancefield Primary schools' projects. Table 4 outlines the allocation in the central corridor per nature of investment.

3.2.2 Eastern Development Corridor

Table 5 below shows that the main appropriation was reduced from R152.76 million to R53.9 million during the special adjustment. The adjusted appropriation has however been increased to R84.6 million due to improved construction performance observed at Birch Acres Ext.32 and Abram Hlophe primary schools' projects after the national lockdown levels have been relaxed.

3.2.3 Northern Development Corridor

Table 6 indicates the budget allocation to the northern corridor from the beginning of the 2020/21 financial year. The main appropriation for this corridor was adjusted downwards to R89.8 million in the special adjustment due to different levels of national lockdown. The table also shows the budget allocated in the special adjustment which has now been adjusted downwards to R67 million due to projects that are experiencing procurement delays.

3.2.4 Western Development Corridor

The western corridor has an overall increase of R 14.1 million to its allocation as indicated in Table 7 below as compared to the special budget adjustment. Simunye Secondary School and Rant-en-daal LSEN are key projects in this corridor that contributed to the increase in the budget to due progress made in the design development phase.

3.2.5 Southern Development Corridor

Table 8 indicates an allocation of R 40.2 million for the southern corridor, which makes up 2.8 percent of the overall adjusted appropriation for the infrastructure programme. The budget was adjusted downwards from R86.5 million to R55.9 million during the special adjustment. It has now been further adjusted downwards to R40.2 million during the mid-year adjustment. Rust-er-vaal Secondary School and Krugelaan LSEN are some of the key projects at construction stage that did not exhibit improved performance after the national lockdown levels were relaxed.

3.2.6 Spanning Across Various Development Corridors

Table 9 below summarises the allocation for projects that span across various corridors. Although there has been in a slight decrease in the overall allocation for this corridor, there has been a significant increase in the maintenance category due to increased demand in unplanned maintenance and repairs from damages cause by vandalism during the lockdown, structural damage for old school buildings and storm damages. Funding has been reprioritised within the corridor to direct funds from underperforming projects in the upgrades and addition category to support the maintenance category.

VOTE 6

DEPARTMENT OF SOCIAL DEVELOPMENT

Infrastructure to be appropriated by Vote Responsible MEC Administering department Accounting officer R 155 245 000 MEC for Social Development Department of Social Development Head of Department

1. STRATEGIC OVERVIEW OF THE INFRASTRUCTURE PROGRAMME

Strategic overview

The Gauteng Department of Social Development (GDSD) engages in infrastructure development as an enabler to the delivery of the Department's core functions. New Infrastructure programmes commence with a view to ensure the equitable provision of services to previously underserved communities in Gauteng. Private service provision is largely unaffordable to the most vulnerable and needy, and often located in areas which are not readily accessible. Provision of infrastructure enables the department to provide an environment in which services can be rendered in line with the strategic direction of the department with emphasis on maintenance and rehabilitation or renovation of existing facilities.

The Department is continuing to extend services to communities in the township and semi-rural areas of the province where distance has proved to be an obstacle for the Department's clients. It continues to engage in a programme of infrastructure development, including the construction of new facilities, refurbishment and upgrading, and life-cycle maintenance of its current assets, to ensure the provision of effective and accessible service delivery to the communities of Gauteng.

The creation of a fully-fledged infrastructure development component in the organisational structure of the Department has significantly improved project planning processes. This has resulted in some projects being rescheduled to commence in the outer years of the Medium Term Expenditure Framework (MTEF), to permit improved planning and readiness for implementation.

Over the past years, only limited maintenance and rehabilitation of the Department's buildings have been carried out. While the buildings are in general solidly built and structurally sound, they are often in dire need of extensive repair, rehabilitation and restoration to ensure that they remain fit for purpose. Departmental immovable assets need to be properly refurbished and maintained to ensure that they continue to function as efficiently and effectively as possible to support the delivery of a wide range of services such as Child Youth Care Centres (CYCCs). The primary objective is to transform the institutions and improve the quality of services, aligned to minimum norms and standard for institutions. The majority of these centres are in excess of sixty years of age and are in need of comprehensive refurbishment and maintenance works to ensure appropriate standards of service and accommodation. Maintenance of GDSD infrastructure over the years has been at an ad hoc basis to mitigate emergency situations and provide temporary solutions.

The GDSD Infrastructure Programme is aligned to Growing Gauteng Together and the following priorities of the 6th Term Administration:

- Economy, Jobs and Infrastructure;
- Education, Skills Revolution and Health;
- Safety, Social Cohesion and Food Security;

Legislative mandate

The GDSD is subject, amongst others, to the following Legislative and Policy mandates:

- Adoption Matters Amendment Act 1996, No. 56 of 1988;
- Children's Act, No. 38 of 2005;
- Criminal Procedures Act No. 51 of 1977;
- Government Immovable Assets Management Act;
- Intergovernmental Relations Framework Act, No 13 of 2005);
- Non-Profit Organisations Act, 1997;
- Occupational Health and Safety at Work Act 85 of 1993;
- Older Persons Act, 2006 Act 13 of 2006;
- Public Service Act 1994, Act no. 111 of 1994;
- Prevention and Combating of Corrupt Activities Act, 2004;
- Prevention and Treatment of Drug Dependency Act, No. 20 of 1992;
- Probation Service Act, No. 116 of 1991;
- The Constitution of the Republic of South Africa 1996 Act 108 of 1996;
- Welfare Laws Amendment Act, No. 106 of 1997;
- White Paper for Social Welfare (1997); and
- White Paper on Population Policy for South Africa (1998).

The infrastructure delivery programme complies with the requirements laid down in the Public Finance Management Act, No. 1 of 1999 (PFMA) and the Division of Revenue Act (DORA). Further legislation that is specifically applicable to the delivery and maintenance of infrastructure includes the following:

- Architectural Profession Act, 44 of 2000;
- Construction Industry Development Board, 38 of 2000;
- Engineering Profession Act, 46 of 2000;
- Landscape Architectural Profession Act, 45 of 2000;
- Occupational Health and Safety Act, 181 of 1993;
- Project and Construction Management Professions Act, 48 of 2000;
- Property Valuers Profession Act, 47 of 2000;
- Quantity Surveyors Profession Act, 49 of 2000;
- Skills Development Act, 97 of 1998; and
- Standards Act, 29 of 1993 and in particular the associated National Building Regulations.

2. FUNDING OF INFRASTRUCTURE

Table 1 indicates a summary of the total infrastructure allocation per investment category with the main appropriation of R197.2 million at the beginning of the 2020/21 financial year, and both the special adjustment appropriation and the mid-year adjustment appropriation of R155.2 million, allocated primarily to accommodate repairs and maintenance of existing facilities as well as addressing Occupational Health and Safety (OHS) issues within departmental facilities, regional offices and 48 service points, continuation of projects under construction and the completion of the renovations of Residential Facilities and Shelters for Women.

Table 2 presents a summary of infrastructure investments per source of funding. Of the main appropriation of R197.2 million, the Provincial Equitable Share (PES) was adjusted downwards from R189.6 million to R147.7 million for both the Special and Mid-year Adjustment Budgets. The Early Childhood Development (ECD) Maintenance Grant remains at R7.6 million.

3. REVIEW OF PERFORMANCE FOR THE 2020/21 FINANCIAL YEAR

3.1 Mid-year performance of the portfolio

The Department implements its infrastructure construction projects through Gauteng Department of Infrastructural Development (GDID). The adjustment budget allocations were determined through an assessment of the progress of current projects and the status of planned project commencements following a review of the implementation dates and progress made at the end of Quarter 2 of the current financial year.

The capital works programme has registered progress in the 2020/21 financial year with several projects that are currently under construction including Bekkersdal Social Integrated Facility, Devon ECD and Garankuwa Rearabilwe Office Accommodation although the projects have been impacted by the COVID-19 national lockdowns and have experienced construction delays.

3.2 Performance per corridor

Table 3 presents the budget of R197.2 million allocated at the beginning of the 2020/21 financial year within the various development corridors and adjusted downwards to R155.2 million in the Special Adjustment, remaining at R155.2 million in the Mid-Year Adjustment. The main contributions to the individual corridor allocations are within projects that were planned to be completed within the 2020/21 financial year, however due to the national lockdowns at the beginning of the financial year these projects experienced delays and contributed to the decrease in the financial allocations to the corridors. The highest budget is allocated across various development corridors, primarily for maintenance, and the lowest budget is allocated to the Central Development Corridor.

3.2.1 Central Development Corridor:

In the 2020/21 financial year, a budget of R21.5 million was allocated to the Central Development Corridor and adjusted downwards by R5.2 million in the Special Adjustment to accommodate non productivity on the planned outputs due to the COVID-19 national lockdowns. This was adjusted downwards by a further R5.3 million in the Mid-year Adjustment, mainly in the Upgrades and Additions category, to allow sufficient time to finalise planning processes for a demolition of existing and construction of new office accommodation project at Walter Sisulu CYCC. An allocation to the maintenance and safety of institutions in this corridor has been prioritised.

3.2.2 Eastern Development Corridor:

The budget of R26.8 million which was allocated to the Eastern Development Corridor in the 2020/21 financial year was adjusted downwards by R6.2 million to R20.7 million in the Special Adjustment, which was adjusted upwards by R2.4 million in the Mid-year Adjustment. The upward adjustment is mainly for the completion of planning and tender documentation for the Tembisa Drug Rehabilitation Centre, payment of the Final Account for the Mary Moodley CYCC Office project, maintenance of office accommodation and institutions and addressing infrastructural OHS issues to meet the required or expected standard.

3.2.3 Northern Development Corridor:

In the 2020/21 financial year, the second highest budget per corridor, of R38.5 million, allocated to the Northern Development Corridor, was adjusted downwards by R8.8 million in the Special Adjustment to R29.7 million, which was subsequently adjusted upwards by R1.5 million in the Mid-year Adjustment. The adjustments were mainly driven by the effects of the national lockdowns, the relocation of the site for the Soshanguve Inpatient Substance Rehabilitation Centre, to allow for payment of the Final Account for the KwaSokhulumi ECD and for day to day and emergency maintenance work, including to address infrastructural OHS issues.

3.2.4 Southern Development Corridor:

In the 2020/21 financial year, a budget of R33.9 million was allocated to the Southern Development Corridor and adjusted downwards by R8.2 million in the Special Adjustment to R25.7 million, which was then adjusted upwards by R225 thousand in the Mid-year Adjustment. The adjustments were mainly due to delays in the design and construction of new infrastructure projects, for example, Ratanda Centre and Bantubonke ECD, while allocations to the maintenance and safety of institutions in this corridor have been prioritised.

3.2.5 Western Development Corridor:

In the 2020/21 financial year, a budget of R34.1 million was allocated to the Western Development Corridor, adjusted downwards by R9.8 million in the Special Adjustment to R24.3 million and adjusted downwards by a further R496 thousand in the Mid-year Adjustment, mainly due to construction delays on the Bekkersdal Social Integrated Facility project, which was significantly impacted by the COVID-19 national lockdowns. Allocations to address maintenance and infrastructural OHS issues in this corridor are prioritised.

3.2.6 Projects Spanning Across Various Corridors:

Projects spanning across various corridors were allocated the highest budget per corridor of R42.4 million in the 2020/21 financial year, which was reduced by R3.8 million to R38.6 million in the Special Adjustment, which was subsequently adjusted upwards by R1.8 million in the Mid-year Adjustment.

The adjustments were driven by a reduction in the allocations to the ECD Renovation Programme, impacted by the COVID-19 national lockdowns, and to the Architectural Services Programme, and by allocations provided in the Mid-year Adjustment for the movement of the reclassification of the budget for the Renovation of Residential Facilities and Shelters for Women from the economic classification NPI to Goods and Services in accordance with Classification Circular 21 of 2018.

DEPARTMENT OF HUMAN SETTLEMENTS

MEC for Human Settlement

Department of Human Settlement

Head of Department

1. STRATEGIC OVERVIEW OF INFRASTRUCTURE PROGRAMME

The Gauteng Department of Human Settlements (GDHS) will continue to deliver on its mandate of providing human settlements to the people of Gauteng. The housing value chain id central in the department's planning process in this regard. To that end, development planning for the department becomes critical in that projects that make it into the Department's Human Settlements Development Grant business plan (HSDG) are subjected to the Project Readiness Matrix (PRM) tool. The PRM serves as a risk mitigant as projects that do not meet the project readiness criteria do not make it into the business plan.

The creation of a reliable project pipeline is another aspect of the value chain for development planning that the department is currently investing in, in its province-wide Human Settlements Spatial Master Plan. Planning ahead for the development of human settlements has never been more urgent for the department, given the ageing infrastructure and the paucity of space in the province.

As part of accelerating human settlements delivery in the province, the department is responding to the Provincial Executive Council's call on the Rapid Land Release Programme (RLRP). People who can afford to build top structures for themselves are provided with serviced sites. In 2017/18, for instance, quite a significant number of people in Ekurhuleni benefitted from the RLRP. The department is identifying areas that can contribute to the realisation of the programme's objectives.

The department has also resolved to develop an implementation plan to assess the extent of abandoned/blocked projects within the province. This will be enabled by adequate financial resourcing. This strategic move should be seen within the context of improving on service delivery and ensuring that housing opportunities are expanded throughout the province. Some of the incomplete housing units will also form part of the RLRP, with families that can afford to build houses for themselves being given an opportunity to do just that.

The implementation of the Mega Projects by the department remains part of its strategy to move away from 'housing' to integrated and sustainable human settlements, with the number of mega projects under implementation increasing in the financial year 2020/21. Alignment of plans and commitments specific to the realisation/provision of planned social amenities are a focal point, to ensure that on completion of the development. The resuscitation of the Urban Renewal Programmes (URPs) is another strategic focus for the department in 2020/21.

Integrated Planning and Budgeting is another critical area that has constantly stood in the way of the province to deliver services optimally to its citizens. However, whilst this has always been a challenge for the department as a critical role-player in the delivery of human settlements, efforts are being made to engage municipalities and other relevant role-players to work hand in hand with the department to deliver integrated and sustainable human settlements.

The department responds to the Growing Gauteng Plan to the third priority (Integrated Human Settlements and Land Reform) while also focusing on the other priorities.

Legislative mandate

The infrastructure delivery programme of the Department complies with the requirements laid down in the Public Finance Management Act, No. 1 of 1999 (PFMA) and the Division of Revenue Act (DORA). Further legislation that is specifically applicable to the delivery and maintenance of Human Settlements infrastructure includes the following:

- Agricultural Holding Registration Act (Act No.22 of 1919);
- Black Communities Development Act (Act No. 4 of 1984);
- Gauteng Planning and Development Act (Act No. 3 of 2003);
- Housing Act (Act No. 107 of 1997);
- Land Administration Act (Act No. 11 of 1996);
- Local Authorities Roads Ordinance of 1904;
- Local Government Municipal Demarcation Act (Act No. 27 of 1998);
- Local Government Transition Act (Act No. 209 of 1993);
- Municipal Finance Management Act (Act No. 56 of 2003);
- National Housing Code, 2009;
- Public Resort Ordinances of 1969;
- Removal of Graves and Dead Bodies Ordinance of 1925;
- The Constitution of the Republic of South Africa Act (Act No. 108 of 1996); and
- Water Service Act (Act No. 108 of 1997).

2. FUNDING OF INFRASTRUCTURE

Table 1 indicates a summary of the total infrastructure allocation per investment category with the main appropriation of R4.98 billion at the beginning of the 2020/21 financial year and the special adjustment appropriation of R4.38 billion. The special adjustment has been adjusted upwards to R4.55 billion due to the approval of a roll-over of R 165 million, of which R55.6 million is from the Title Deeds Restoration Grant (TDRG) and R109.4 million from the Human settlements Development Grant (HSDG) for payment of invoices for which work was done during the 2019/20 financial year and completion of various projects carried through from the 2019/20 financial year. The budget is allocated primarily to mega projects, hostel redevelopment, assets maintenance, rapid land release and urban renewal programme.

Table 2 presents a summary of infrastructure investments per source of funding. Of the main appropriation of R4.98 billion, a budget of R4.8 billion was allocated from the conditional grants and adjusted downwards to R4.2 billion in the Special Adjustment. It has been subsequently adjusted upwards to R4.37 billion for the Mid-year Adjustment due to the approval of a roll-over of R 165 million, of which R55.6 million is for the Title Deeds Restoration Grant (TDRG) and R109.4 million from the Human settlements Development Grant (HSDG). Expanded Public Works and Provincial Equitable Share (PES) remains unchanged from the main appropriation.

3. REVIEW OF PERFORMANCE FOR THE 2020/21 FINANCIAL YEAR

3.1 Mid-Year Performance of the Portfolio

Against the annual targets of 13 851 serviced stands and 9 563 housing units, actual delivery as at the end of the second quarter, recorded 2 085 (15%) serviced stands and 3 484 (36%) housing units respectively across the Gauteng Development Corridors.

The Financial Housing Intervention had no delivery on serviced stands against the planned annual target of 7 375 stands and no housing units against the target of 400. The annual housing units were planned under the Individual Housing Subsidies non-credit linked (200) and the Housing Finance Linked Individual Subsidy Programme (200), respectively.

The Incremental Housing Intervention planned 6 476 sites for the year and only achieved 2 085 (15%) sites. A total of 3 484 (36%) housing units has been achieved under the programme, against the target of 9 113 units for the financial year. Whilst the Provincial Specific Programme to deliver 50 units for the financial year, no delivery recorded at end of the second quarter.

3.2 Performance per Corridor

Table 4 below presents the budget of R4.98 billion allocated at the beginning of the 2020/21 financial year within various development corridors and adjusted downwards to R4.38 billion in the Special Adjustment, which was subsequently adjusted upwards to R4.55 billion in the Mid-Year Adjustment due to the approval of the roll-over for projects within different corridors. The biggest share of R2.18 billion of the adjusted budget is allocated to the projects spanning across various corridors, with the lowest share of R 206.9 million allocated to Northern development corridor.

Central Development Corridor

In the 2020/21 financial year, a budget of R771.3 million was allocated to the Central Development Corridor and adjusted downwards by R260.7 million in the Special Adjustment to accommodate COVID-19 national lockdowns as this affected the planned outputs and performance on the ground. The allocation was further adjusted downwards by R4.4 million in the Mid-year Adjustment. The key projects implemented within this corridor are; Riverside View 28, Hospital Hill, Goudrand Ext 4, Cosmo City and Hostel Housing Projects.

Eastern Development Corridor:

In the 2020/21 financial year, the second highest budget per corridor, of R1.13 billion, allocated to the Eastern Development Corridor, was adjusted downwards to R713.9 million in the Special Adjustment, which was further adjusted downwards to R708.3 million in the Mid-year Adjustment. The allocated budget is mainly towards continuation of key and mega projects such as Helderwyk, Daggafontein, Clayville Ext. 71, Dan Tloome and Palm Ridge.

Northern Development Corridor:

The budget of R576.5 million which was allocated to the Northern Development Corridor, in the 2020/21 financial year was adjusted downwards by R367.1 million in the Special Adjustment, this has been slightly adjusted downwards by R2.5 million to R206.9 million in the Mid-year Adjustment. The adjustments were mainly driven by the effects of the national lockdowns, reprioritisation on projects to accommodate the performance on the planning, installation of services and construction of top structures.

In the 2020/21 financial year, a budget of R519.2 million was allocated to the Southern Development Corridor and adjusted downwards by R85.5 million in the Special Adjustment to R433.7 million, which was then slightly adjusted downwards by R1 million in the Mid-year Adjustment. The adjustments were mainly driven by the effects of the national lockdowns contributed to the non-productivity on sites.

Western Development Corridor:

In the 2020/21 financial year, a budget of R900.9 million was allocated to the Western Development Corridor, adjusted downwards to R525.2 million in the Special Adjustment and adjusted downwards by a further R9.1 million in the Mid-year Adjustment which was significantly impacted by the COVID-19 national lockdowns. Allocations are mainly towards the provision of new infrastructure assets within mega projects.

Projects Spanning Across Various Corridors:

Projects spanning across various corridors were allocated the highest budget per corridor of R1.08 billion in the 2020/21 financial year, which was increased by R907 million to R1.99billion in the Special Adjustment, which was subsequently adjusted upwards by R187.5 million in the Mid-year Adjustment due to the approval of the roll-over of R165 million. Projects cutting across more than one corridor includes the Urban Renewal Project, Registration of Informal Settlement in Gauteng, Purchase of Land, Rapid Land Release, Asset Maintenance and quality assurance by National Home Builders Registration Council.

VOTE 9

DEPARTMENT OF ROADS AND TRANSPORT

Infrastructure to be appropriated by Vote R1 802 129 000

Responsible MEC
Administering department

Accounting officer Head of Department

1. STRATEGIC OVERVIEW OF INFRASTRUCTURE PROGRAMME

The infrastructure programme of the Department is guided by the following departmental strategic priorities:

MEC for Roads and Transport

Department of Roads and Transport

- To provide a balanced and equitable road network; and
- To plan, regulate and facilitate the provision of public and freight transport services.

The Gauteng Department of Roads and Transport (GDRT) Infrastructure Programme is aligned to the Growing Gauteng Together Plan and the seven priorities of the 6th Term Administration and specifically to the first priority of "Economy, Jobs and Infrastructure".

Legislative mandate

The infrastructure delivery programme complies with the requirements laid down in the Public Finance Management Act, No. 1 of 1999 (PFMA) and the Division of Revenue Act (DoRA). Further legislation that is specifically applicable to the delivery and maintenance of roads and transport infrastructure includes the following:

- Architectural Profession Act, 2000 (Act No. 44 of 2000);
- Built Environment Profession Act, 2000 (Act No. 43 of 2000);
- Construction Industry Development Board Act, 2000 (Act No. 38 of 2000);
- Engineering Profession Act, 2000 (Act No. 46 of 2000);
- Geomatics Profession Act, 2013 (Act No.19 of 2013).
- Government Immovable Asset Management Act, 2007 (Act No. 19 of 2007);
- Intergovernmental Relations Framework Act, 2005 (Act No. 13 of 2005); and
- Landscape Architect Profession Act, 2000 (Act No. 45 of 2000);
- National Building Regulations Standards Act, 1982 (Act No. 30 of 1982);
- Natural Scientific Professional Act, 2003 (Act No. 27 of 2003);
- Occupational Health and Safety Act, 1993 (Act No. 85 of 1993);
- Project and Construction Management Act, 2000 (Act No. 48 of 2000);
- Property Valuers Profession Act, 2000 (Act No. 47 of 2000);
- Public Service Act, 1994 as amended in 2007 (Act No. 30 of 2007) and Public Service Regulations, 2016;
- Quantity Surveyors Profession Act, 2000 (Act No. 49 of 2000);
- Skills Development Act, 1998 (Act No. 97 of 1998); and
- South African Planning Profession Act, 2002 (Act No. 36 of 2002).

2. FUNDING OF INFRASTRUCTURE

In the 2020/21 financial year, a total infrastructure allocation per investment category is shown in Table 1 below. The total main appropriation of R2.643 billion was adjusted downwards to R1.98 billion in the Special Adjustment and further downwards to R1.802 billion in the Mid-year Adjustment Budget. The lockdown restrictions implemented by the President of South Africa to curb the spread of coronavirus (COVID-19) have affected the performance of the infrastructure programme negatively. Construction sites were closed throughout the country and officials were forced to work remotely which made it difficult for Bid Committees to perform their duties. The further downward adjustment of R177.55 million in the Mid-year Adjustment is mainly as a result of delays to projects on tender.

A main appropriation of R1.265 billion was allocated to the Maintenance and Repairs programme for the 2020/21 financial year and was adjusted downwards to R1.006 billion in the Special Adjustment. The upward adjustment to this category of R40.46 million in the Mid-year Adjustment is primarily due to R45.49 million received from National Treasury (NT) to assist the province in creating jobs through infrastructure.

Table 2 presents a summary of infrastructure allocations per funding source. R1.888 billion of the main appropriation was sourced from the Provincial Equitable Share (PES), which was adjusted downward by R550.43 million to R1.338 billion in the Special Adjustment and further downward by R223.04 million to R1.114 billion in the Mid-year Adjustment, primarily due to delays experienced in sourcing Professional Services Providers (PSPs) and contractors.

Funding from the Provincial Roads Maintenance Grant (PRMG) was adjusted downward by R112.84 million to R632.17 million in the Special Adjustment, which was increased in the Mid-year Adjustment by the R45.49 million to create jobs in the province. A budget of R9.97 million sourced from the Expanded Public Works Programme (EPWP) Incentive Grant remained unchanged through both adjustments.

3. REVIEW OF PERFORMANCE FOR THE 2020/21 FINANCIAL YEAR

3.1. Mid-year performance of the portfolio

The national lockdowns imposed to curb the spread of COVID-19 halted all projects under construction in the first quarter of the financial year but the Department has managed to complete the rehabilitation of Road P175/1 from Vanderbijlpark to Potchefstroom Phase 2.

Road projects under construction are now progressing well despite the delays imposed by COVID-19. The Department requested contractors to revise construction programmes for affected projects to accommodate time lost due to lockdown restrictions, specifically on the following construction projects: P241/1: Rehabilitation of Road P241/1 (R554), Rehabilitation of P39/1 (Diepsloot to Muldersdrift), Rehabilitation of Road P156/3, Upgrading of K69 Section 1 (M10) (Solomon Mahlangu) and Construction of new Road K54 Section 1 between K69(M10) (Solomon Mahlangu) and K22(P154-1) (R104). Procurement challenges are being addressed by the Department.

3.2. Performance per corridor

Table 3 summarises the budget allocated per development corridor, of which the main appropriation was adjusted downwards by R663.27 million in the Special Adjustment and by a further R177.5 million in the Midyear Adjustment. Projects spanning across the various corridors retain the largest portion of the budget, which, at R1.136 billion, is mainly for the maintenance of existing roads infrastructure and for planning services. The Northern Development Corridor remains with the second largest portion, although its allocation has been reduced by a further R159.51 million in the Mid-year Adjustment due to procurement challenges. The significant increase of R103.54 million in the allocation to the Southern Development Corridor is due to a reprioritisation of funds within the Department to provide R173.11 million required for improving the condition of roads located in the Emfuleni Municipality.

Table 3: Budget per Development Corridor

3.2.1 Central Development Corridor

In the 2020/21 main appropriation, R336.98 million was allocated to the Central Development Corridor. This was adjusted downwards by R180.37 million to R156.62 million in the Special Adjustment which was adjusted downwards by a further R29.8 million in the Mid-year Adjustment. These adjustments are mainly to accommodate delays in procuring service providers for; The Rehabilitation of Road P73/1 between Ennerdale (km 41,0) and Eldorado park (km 62.24), K46 Phase 2: William Nicol between PWV5 (Jukskei River) and Diepsloot, K101 Phase 1: Upgrading(Doubling) road P1/2 (K101) (old PTA/JHB road) from N1 Rooihuiskraal interchange to road D795 (Olifantsfontein rd) (Midrand), as well as other projects that are currently at tender. The main appropriation for these projects of R188.52 million for the current financial year has been reduced to R16.1 million after the Mid-year Adjustment.

3.2.2 Eastern Development Corridor:

In the 2020/21 financial year, a budget of R72.02 million was allocated to the Eastern Development Corridor as the main appropriation, which was adjusted downwards by R10 million in the Special Adjustment and down by a further R40.45 million to R21.57 million in the Mid-year Adjustment. The downward adjustments are primarily linked to the procurement of contractors for the regravelling of roads and for the construction of road K148 between roads K146 and K133, including the K148/N3 Interchange.

3.2.2 Northern Development Corridor:

In the 2020/21 financial year, a budget of R564.33 million was allocated to the Northern Development Corridor as the main appropriation, which was adjusted downwards by R139.5 million in the Special Adjustment and by a further downward adjustment of R159.5 million in the Mid-year Adjustment to R265.32 million. These adjustments were mainly as a result of procurement delays in terms of the Rehabilitation of Provincial Road D483 between P6-1 (Bapsfontein) and D713 (Cullinan) project and of contractors for the regravelling of roads, as well as land acquisition for the K217 from K8 (R566) to K4 (Ruth first Road) Phase 1: Rosslyn Hub.

3.2.4 Southern Development Corridor:

In the 2020/21 financial year, a budget of R159.39 million was allocated to the Southern Development Corridor as the main appropriation, which was adjusted downwards by R55.25 million in the Special Adjustment to R104.14 million, mainly as a result of delays experienced during procurement of service providers for; Vaal River City: Construction of new interchange and access roads on the R42 (Barrage Road) in Vereeniging, R82 phase 3 between Road D1073 (Walkerville) and K164 (De Deur), and the P156/3: Rehabilitation of Road P156/3 from P155/1 to D2568. The Mid-year Adjustment then increased the allocation to this corridor by R103.54 million, primarily to provide for the improvement of roads in the Emfuleni Municipality.

3.2.5 Western Development Corridor

In the 2020/21 financial year, a budget of R120.37 million was allocated to the Western Development Corridor as the main appropriation, which was adjusted downwards by R20 million in the Special Adjustment and down by a further R55.8 million to R44.57 million in the Mid-year Adjustment. These adjustments are primarily due to procurement delays on the Rehabilitation of Road P241-1 (R554) and D405 project and of contractors for the regravelling of roads in the corridor.

3.2.6 Projects Spanning Across Various Development Corridors

In the 2020/21 financial year, a budget of R1.39 billion was allocated to projects spanning across various development corridors as the main appropriation, primarily for the Department's maintenance programmes and planning services. It was adjusted downwards by R258.15 million to R1.132 billion in the Special Adjustment due to the impact of COVID-19 on the maintenance programmes during the national lockdowns, with a small upward adjustment by R4.43 million in the Mid-year Adjustment.

1. STRATEGIC OVERVIEW OF INFRASTRUCTURE PROGRAMME

Strategic overview

The purpose of the Gauteng Department of Agriculture and Rural Development (GDARD) Infrastructure Programme is to provide support to different sub-programmes in the department by managing the planning and delivery of infrastructure programmes and projects.

The infrastructure programme includes upgrading and maintenance of Agriparks, bulk infrastructure to service buildings and people staying at the nature reserves, visitor facilities to facilitate tourism in the protected areas, and buildings to facilitate environmental education and awareness.

The GDARD Infrastructure Programme is aligned to the Growing Gauteng Together plan and the following five priorities of the 6th Term Administration:

- Economy, Jobs and Infrastructure;
- Education, Skills Revolution and Health;
- Integrated Human Settlements and Land Release;
- Safety, Social Cohesion and Food Security;
- Sustainable development for future generations.

Legislative mandate

The infrastructure delivery programme complies with the requirements laid down in the Public Finance Management Act, No. 1 of 1999 (PFMA) and the Division of Revenue Act (DORA). Further legislation that is specifically applicable to the delivery and maintenance of Agriculture and Rural Development infrastructure includes the following:

- Architectural Profession Act, No. 44 of 2000;
- Built Environment Profession Act, No. 43 of 2000;
- Construction Industry Development Board Act, No. 38 of 2000;
- Engineering Profession Act, No. 46 of 2000;
- Government Immovable Asset Management Act, No. 19 of 2009, referred to as GIAMA;
- Intergovernmental Relations Framework Act, No. 13 of 2005;
- Landscape Architect Profession Act, No. 45 of 2000;
- National Building Regulations Standards Act, No. 30 of 1982;
- Occupational Health and Safety Act, No. 85 of 1993;
- Probation Service Act, No. 116 of 1991;
- Public Service Act, No. 111 of 1994;
- Project and Construction Management Act, No.48 of 2000;
- Property Valuers profession Act, No. 47 of 2000;
- Quantity Surveyors Profession Act, No. 49 of 2000; and
- Skills Development Act, No. 97 of 1998.

2. FUNDING OF INFRASTRUCTURE

In the 2020/21 financial year, a budget of of R24.2 million was allocated for GDARD infrastructure, which was adjusted downwards to R24 million in the Special Adjustment and to R19.4 million in the Mid-year Adjustment, due to COVID-19, as indicated in the summary of the total infrastructure allocation per investment category shown in Table 1.

In the Mid-year Adjustment, the allocation to fund the Internal Capacity Building Programme (compensation of employees) to plan and manage the delivery of infrastructure projects has been adjusted downward by R3.7 million, mainly due to delays in appointments to vacant funded positions and in the procurement of tools for officials. The allocation for the Upgrades and Additions Programme has been adjusted downward by R1.2 million and to the Maintenance and Repairs programe by R99 thousand. A budget of R453 thousand has been provided under the Rehabilitation and Refurbishment Programme for the payment of invoices received for the final account for the Renovations of Oxidation Tank project in Kareekloof Camp.

Table 2 presents a summary of the infrastructure allocation per source of funding. In the 2020/21 financial year, a budget of R2.3 million was allocated from the Expanded Public Works Programme (EPWP) Incentive Grant which has remained unchanged through the Special Adjustment and the Mid-year Adjustment. The Provincial Equitable Share (PES) portion of the budget was adjusted downward by R218 thousand in the Special Adjustment and by a further R4.6 million in the Mid-year Adjustment.

3. REVIEW OF THE 2020/21 FINANCIAL YEAR

3.1 Mid-year performance of the portfolio

The COVID-19 national lockdowns affected the implementation of infrastructure projects heavily, halting almost all sectors in the country during lockdown alert levels 5 and 4, with the construction sector one of the heavily impacted ones. The Suikerbosrand Nature Reserve-Southern Water Line project has faced major challenges with vandalism of the pump stations and theft of the electrical cables before and during the national lockdowns.

To address delays in the implementation of its infrastructure projects, the Department has appointed the Development Bank of South Africa (DBSA) as an Implementing Agent (IA). The DBSA commenced work for the Department at the start of the current financial year, and, while delayed by COVID-19, compiled an Infrastructure Programme Implementation Plan (IPIP) for the projects assigned to it, which was approved by the Department in August 2020. The Maintenance and Repairs project at Alice Glockner Nature Reserve has progressed well and is nearing its completion.

3.2 Performance per corridor

Table 3 summarises the budget allocated per development corridor, of which, in the 2020/21 financial year, there was a downward adjustment of R218 thousand in the Special Adjustment and a further downward adjustment of R4.6 million in the Mid-year Adjustment, primarily due to delays in the Internal Capacity Building Programme and at the Southern Water Line project at the Suikerbosrand Nature Reserve.

3.2.1 Eastern Development Corridor

In the 2020/21 financial year, a budget of R5 thousand was allocated to the Eastern Development Corridor, as a minimal amount for planning, which remained unchanged in the Special Adjusted Budget. There has been an upwards adjustment to R458 thousand to accommodate payment of the Final Account for the Renovation of Oxidation Tank project at Kareekloof Camp.

3.2.2 Northern Development Corridor

In the 2020/21 financial year, a budget of R10 thousand was allocated to the Northern Development Corridor as a minimal amount for projects at planning, which remained unchanged in the Special Adjustment and is not adjusted in the Mid-year Adjustment.

3.2.3 Southern Development Corridor

In the 2020/21 financial year, a budget of R2.6 million was allocated to the Southern Development Corridor, which was adjusted downwards by R154 thousand in the Special Adjustment and down by a further R995 thousand in the Mid-year Adjustment. This adjustment was due to a delay in the approval of a purchase order for the Southern Water Line project at the Suikerbosrand Nature Reserve, for a new contractor appointed by Gauteng Department of Infrastructure Development (GDID) to complete the snag list works that the initial contractor could not complete.

3.2.4 Western Development Corridor

In the 2020/21 financial year, a budget of R567 thousand was allocated to the Western Development Corridor, which was adjusted downwards by R64 thousand in the Special Adjustment and down by a further R288 thousand in the Mid-year Adjustment, where a new contractor is to be appointed at the Abe Bailey Nature Reserve to complete maintenance work that was left unfinished by a contractor whose appointment has been terminated.

3.2.5 Projects Spanning Across Various Corridors

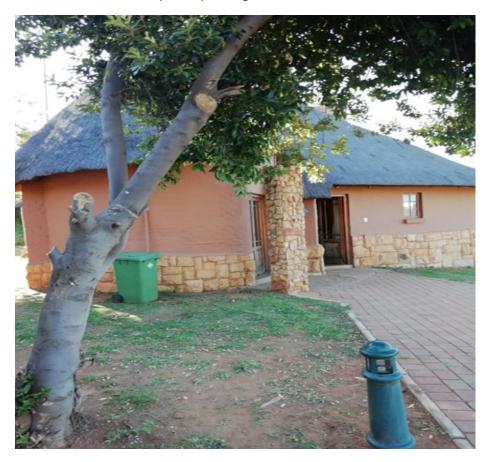

In the 2020/21 financial year, a budget of R20.9 million was allocated across the various development corridors, for the Internal Capacity Building Programme and the EPWP, which has been adjusted downward by R3.7 million, as shown in Table 8, due to a delay in the filling of vacant funded positions and the procurement of tools for officials.

1 STRATEGIC OVERVIEW OF THE INFRASTRUCTURE PROGRAMME

Strategic overview

The core mandate of the Gauteng Department of Sport, Arts, Culture and Recreation (GDSACR) is to ensure increased access to, participation in, and transformation of sport, arts, culture and recreation sectors through radical economic and accelerated social transformation that benefits all in the province, promoting nation building and social cohesion. The infrastructure programme of the department is guided by the following strategic goals:

- Transformed and modernised sport and cultural landscape which contributes to social cohesion and nation building;
- Transforming Gauteng economically through creative industries and the business of sport;
- Develop, transform, promote, modernise sustainable library information and archival services; and
- A capable and activist Administration, which contributes to a modern developmental state to promote good governance.

The infrastructure programme is aligned to the Growing Gauteng Together plan and the following priorities of the 6th Term Administration, anchored in and guided by the Transformation, Modernisation and Reindustrialisation (TMR) programme and giving expression to the National Development Plan (NDP):

- Economy, Jobs, and Infrastructure;
- Education, Skills Revolution and Health; and
- Safety, Social Cohesion and Food Security.

The infrastructure programme includes the provision of Community Libraries and Archive Centres, Heritage Projects, and Sports Facilities. The aim of the Library and Archival Services Programme is to establish and maintain community and dual libraries in municipalities and to provide access to knowledge, resources and services to meet the needs of individuals and groups for education, information and personal development to achieve the broad imperatives of socio-economic development and promote a culture of nation-building. The specific aim of the archival services is to ensure systems, knowledge and skills are in place for the deposit of documentation and sound records management to facilitate seamless access to information. The department, in accordance with its mandate to "preserve heritage", has identified monuments within the regions of Gauteng. The monuments are established in remembrance of key historical events, while providing facilities to enable the development of local arts and culture.

Westbury Sports Facility (Operation Mabaleng)

Westbury Sports Facility (previously named Operation Mabaleng) is a flagship project which is facilitated, coordinated, and implemented through recreation programmes. Westbury Sports Facility is the first facility built that aims to address the shortage of sporting facilities in communities served, thereby encouraging and increasing participation in sports. Sports and Recreation Programmes are rolled out in more inactive and deprived townships, informal settlements, and rural areas through sports activities such as Football, Netball, Rugby, Cricket, and other sporting codes. Development of physical infrastructure for sports and recreation that enhances and promotes a healthier lifestyle amongst communities will be prioritised. Stakeholder engagements

will be the key focus of the Sports and Recreation Programmes to ensure that inputs from the communities are incorporated and contribute to the improvement of services provided.

Legislative mandate

The infrastructure delivery programme complies with the requirements laid down in the Public Finance Management Act, No. 1 of 1999 (PFMA) and the Division of Revenue Act (DORA). Further legislation that is specifically applicable to the delivery and maintenance of GDSACR infrastructure includes the following:

- Architectural Profession Act, No.44, 2000;
- Built Environment Profession Act, No.43, 2000;
- Children's Act, No. 38 of 2005;

2 FUNDING OF INFRASTRUCTURE

A summary of the total infrastructure allocation per investment category is shown in Table 1 below which reflects the total main appropriation of R 43.9 million which was adjusted downwards to R 25.9 million in the Special Adjustment due to COVID-19. The R25.9 million was further adjusted downward in the Mid-year Adjustment to R24.2 million, primarily because of construction delays experienced at Bophelong, Drieziek and Impumelelo libraries.

Table 2 below presents the summary of the infrastructure allocation per source of funding. The Provincial Equitable Share (PES) portion of the budget was adjusted downward by R5 million in the Special Adjustment and has been reduced by a further R2.7 million in the Mid-year Adjustment to R7.2 million. Funding from the Community Library Service Grant was adjusted downward by R13 million in the Special Adjustment and has been increased by R1 million in the Mid-year Adjustment while the R2 million from the Expanded Public Works Programme (EPWP) Incentive Grant has remained unchanged through both adjustments.

3 REVIEW OF THE 2020/21 FINANCIAL YEAR

3.1 Mid-year performance of the portfolio

The library programme undertaken by the Department has made substantial progress with regards to the construction of seven (7) community libraries within the province, of which Kokosi Community Library was officially opened in the second quarter of this financial year. The following community libraries projects are at various stages of progress and planned for completion this financial year:

- Boipatong Community Library;
- Rust Ter Vaal Community library; and
- Akasia Community Library.

3.2 Performance per corridor

Table 3 below summarises the budget allocated per development corridor, of which the overall budget for the infrastructure programme was adjusted downwards by R18 million in the Special Adjustment and has been adjusted downwards by a further R1.7 million in the Mid-year Adjustment. The downward adjustment as reflected above is primarily due to construction delays experienced at Bophelong, Drieziek and Impumelelo community libraries.

3.2.1 Central Development Corridor:

Key projects within this development corridor include the construction of Naturena and Drieziek community libraries and a multi-purpose sports facility at MH Joosub Secondary School which is still at the planning stage. The budget has however been adjusted downwards by R932 thousand in this corridor due to construction delays experienced at the two community libraries located at Naturena and Drieziek.

3.2.4 Southern Development Corridor:

The budget for this corridor was adjusted downward by R7.6 million in the Special Adjustment. The construction of Impumelelo Community Library has experienced delays which have resulted in the cashflow requirements for this corridor being adjusted downwards by a further R1.9 million in the Mid-year Adjustment, to match the possible activities that can be completed in the remaining months of this financial year.

3.2.6 Projects Spanning Across Various Corridors:

The budget for projects to be implemented across the various development corridors was increased by R260 thousand in the Special Adjustment to R6.9 million, which was reduced by R195 thousand in the Mid-year Adjustment. The process for procuring service providers to maintain all the facilities utilised by the department, especially heritage facilities, is underway and there is therefore an upward adjustment in the allocation for maintenance. The funding requirements for capacity building have been aligned, taking into consideration delays experienced and the number of months left before the end of the financial year.

1. STRATEGIC OVERVIEW OF INFRASTRUCTURE PROGRAMME

The following six strategic objectives have been identified as key to the successful delivery of the Gauteng Department of Infrastructure Development (GDID) mandate, as well as providing direction to achieve the departmental vision.

- **Sustainable infrastructure** expanded and well-maintained public infrastructure which keeps abreast of the growing demand for such, to promote the development of the province and redress economic disparities.
- Accelerated service delivery delivery of infrastructure and maintenance accelerated to meet the direct and derived needs and expectations of the department's client organisations and citizens.
- Organisational development for building state capacity technical and administrative capacity of the
 department improved towards an efficient, effective and development oriented public service and an
 empowered, fair and inclusive citizenship.
- Optimise state assets for economic development and supporting entrepreneurs department leverages all state assets in a way that makes a significant contribution to the economic development of the province and the support of emerging and existing BBBEE entrepreneurs.
- Empowering communities through job creation in partnership with the public and private sector. the department acts as a catalytic enabler for job creation, resulting in economic empowerment of communities in the province, with specific focus on Women, Youth and People with Disabilities.
- **Integrated planning** department adopts an integrated planning process that involves all stakeholders in pursuance of sustainable infrastructure and economic empowerment and job creation.

The GDID Infrastructure Programme is aligned to Growing Gauteng Together plan and the seven priorities of the 6th Term Administration, anchored in and guided by the Transformation, Modernisation and Reindustrialisation (TMR) programme and giving expression to the National Development Plan (NDP);

- Economy, Jobs and Infrastructure;
- Integrated Human Settlements and Land Reform;
- Build a capable, ethical and developmental state;

1.2 Legislative mandate

The infrastructure delivery programme complies with the requirements laid down in the Public Finance Management Act, No. 1 of 1999 (PFMA) and the Division of Revenue Act (DORA). Further legislation that is specifically applicable to the delivery and maintenance of infrastructure includes the following:

- Architectural Profession Act, No. 44 of 2000;
- Built Environment Profession Act, No. 43 of 2000;
- Children's Act, No. 38 of 2005;
- Construction Industry Development Board Act, No. 38 of 2000;
- Criminal Procedures Act, No. 51 of 1977;
- Engineering Profession Act, No. 46 of 2000;
- Government Immovable Asset Management Act, No. 19 of 2009, referred to as GIAMA;
- Intergovernmental Relations Framework Act, No. 13 of 2005;
- Landscape Architect Profession Act, No. 45 of 2000;

- National Building Regulations Standards Act, No. 30 of 1982;
- Non-Profit Organisations Act, No. 71 of 1997;
- Occupational Health and Safety Act, No. 85 of 1993;

- Skills Development Act, No. 97 of 1998;

2. FUNDING OF INFRASTRUCTURE

The total funding allocation for the 2020/21 financial year was adjusted downwards from R167.3 million to R138.4 million during the Special Adjustment as there was no progress on different sites due to national lockdown. Although there has been a resumption of activities across various projects, the overall allocation for the mid-year adjustment budget has been retained at R138.4 million, and funding has been reprioritised within the infrastructure portfolio to support projects that are progressing at a better rate. The allocated budget has been adjusted in line with progress made on the planning of Kopanong Precinct and the Occupational Health & Safety (OHS) refurbishment projects. Table 1 provides the summary of budget reprioritisation between the investment categories.

Table 2 summarises the allocated adjusted budget of R138.4 million per funding source. Of the adjusted budget R117.3 million is funded from the Provincial Equitable Share (PES) and R21.1 million is funded from Expanded Public Works Programme (EPWP) to fund job creation for the youth. EPWP is now classified under maintenance category after identifying projects that meet the minimum requirements for this funding.

3. REVIEW OF THE 2020/21 FINANCIAL YEAR

3.1 Mid -Year Performance of the Portfolio

The department was allocated R167.4 million for the 2020/21 financial year. However, this was adjusted downwards to R138.4 million due to the national lockdown and the anticipated slow down on construction activities. The budget allocation remains the same as the special adjusted appropriation, funding has been reprioritised within the portfolio in order to make funding available for programmes that are likely to make progress in the next quarter namely, Kopanong Precinct and the OHS Programme.

3.2 Performance per Corridor

Table 3 summarises the budget allocation per developmental corridor of which 77 percent of the adjusted budget is allocated to the Central Development Corridor. This allocation is mainly for the renovations and rehabilitation of the precinct buildings to comply with the OHS Act and for general maintenance. The remaining budget is aimed at the maintenance of the regional offices, condition assessment and EPWP.

3.2.1 Central Development Corridor

The central corridor consists of the majority of the projects in the infrastructure portfolio as it is the hub of Gauteng Provincial Government (GPG) offices, both leased and government owned. The satisfactory planning progress made on GPG offices' Kopanong Precinct and OHS refurbishment projects resulted in the upwards adjustment from R97.5 million in the special budget to R107.3 million in the mid-year budget adjustment.

3.2.2 Eastern Development Corridor

The progress on planned maintenance necessitated an upwards adjustment from R320 thousand to R1.48 million. The main project in this corridor is the maintenance of the Springs regional offices.

3.2.3 Northern Development Corridor

The key projects that are underway in the northern corridor are the general maintenance of the Tshwane regional offices and workshops at Steve Biko and Dr George Mukhari hospitals. The upwards adjustment from R2.8 million to R6.1 million is due to the satisfactory progress on maintenance of regional offices.

3.2.4 Southern Development Corridor

The downwards adjustment from R660 thousand to R192 thousand within this corridor is mainly due to the slowing down of maintenance activities planned for the offices located within this corridor. The main project in this corridor is the maintenance of the Sedibeng district offices.

3.2.5 Western Development Corridor

The non-allocation of budget in this corridor is due non-availability of projects which are ready to be implemented and minimal maintenance work required of workshops located at Carletonville and Dr Yusuf Dadoo hospitals.

3.2.6 Projects Spanning Across Various Corridors

The department is planning to conduct condition assessments on GPG facilities in the province. The downwards adjustment is therefore due to unsatisfactory progress on the planned assessments that can be undertaken in the remaining months of the 2020/21 financial year. The roll-out of the Expanded Public Works Programme (EPWP) is an ongoing project in all five corridors for which a budget of R21.1 million has been allocated for the 2020/21 financial year.
